

COVID-19:

How we handle business

Although these are unnerving times, OfficeMaid Clean Team is in the best position to help flatten out the curve against this virus. Thanks to our wonderful Clean Team, our clients can be at peace knowing we do our best to maintain cleaner and healthier environments. Here are some steps we take to ensure safety with our clients and our Clean Team.

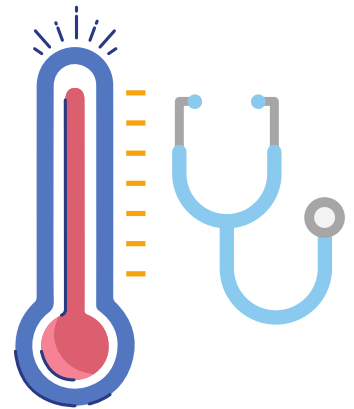

1 Disinfected Supplies

Only disinfected supplies and freshly laundered materials are used for each cleaning.

2 Clean Team Check-In's

Our Clean Team arrives to work and goes through our "COVID-19 Health Check In" where we check their temperature, as well as any symptoms they may be experiencing, if any.

3 Worksite Safety

While working, we remain 6ft. apart, socially distanced, immediately sanitizing points of entry, high-touch areas, and after a job well done, we sanitize our exits for a clean and healthy environment.
